

Impact of the Noto Peninsula Earthquake which occurred on January 1, 2024

January 2, 2024
Sanken Electric Co., Ltd.

We would like to express our sincere condolences to those who suffered this earthquake and other impacts which were caused by the earthquake.

Yesterday, on January 1 (Monday) around 4:06 pm and thereafter, the earthquake centered in the Noto region of Ishikawa Prefecture (Noto Peninsula Earthquake) occurred. We would like to inform you about the impacts of the earthquake as follows:

Currently, we are in the process of confirming the situation at each of our facilities, including the human casualties caused by the earthquake. In particular, at the production facilities of Ishikawa Sanken (Horimatsu, Shika and Noto plants), which are located close to the epicenter, there has been a significant impact on the essential infrastructure for living, requiring a certain amount of time for investigation. We are also proceeding with the confirmation of the impact on procurement and logistics concurrent with assessing the situation of Ishikawa Sanken.

We will make further announcements as more information becomes available.
