

Update 12 - Impact of the Noto Peninsula Earthquake which occurred on January 1, 2024

February 21, 2024
Sanken Electric Co., Ltd.

We would like to express our sincere condolences to those who suffered this earthquake and other impacts which were caused by the earthquake.

We would like to inform you of the 12th report regarding the impact of the earthquake centered in the Noto region of Ishikawa Prefecture (Noto Peninsula Earthquake) which occurred on January 1 (Monday), 2024.

The latest status at our production facilities of Ishikawa Sanken (Horimatsu, Shika and Noto plants) is as follows.

- Horimatsu and Noto plants are expected to resume full production by mid-March.
- Shika plant is expected to resume full production by the end of March, including alternative production at Horimatsu plant.

We have been working on restoration activities at Ishikawa Sanken, which was damaged by the earthquake, and we expect to resume full production at three plants next month as mentioned above.

We would like to apologize for the great concern and inconvenience caused by the earthquake. We would also like to express our sincere gratitude to related ministries and agencies, local governments, business partners, shareholders and others who have cooperated and supported our recovery efforts.

The entire Sanken Group will continue to make concerted efforts, and we look forward to your continued support.
